

## Jewelry Specifications

**Design:** All Rockwood Jewelry designs are unique and original. Our designs reflect the latest in fashion trends while maintaining classic and elegant lines. You will not find our designs offered anywhere else as all our creations are exclusive to Rockwood Jewelry.

**Plating:** At Rockwood Jewelry we offer high quality hypo-allergenic electroplated finishes on all our earrings and many of our other jewelry selections. Plated with one of the 'white' metals, it will remain bright and attractive for years.

**Lead Safe:** All Rockwood Jewelry selections are lead safe for the safety of your customers. Our jewelry is tested for lead content before leaving the Orient and then independently lab tested in the US to be certain it meets the US Consumer Product Safety Commission requirements. ALL of our jewelry selections meet the lead safe requirements nationwide.

**Quality Control:** Unlike much imported jewelry, we do not shop for the factory willing to give us the lowest price. We develop long term, mutually beneficial relationships with our factories. This allows us to be involved in EVERY aspect of design and manufacturing. It also allows for NO SURPRISES! We know every shipment will meet our high standards of quality and each piece will be made exactly to our specifications. It also gives us peace of mind knowing that we are dealing with a principled factory providing ethical working conditions.

**Lifetime Guarantee:** The Rockwood Jewelry Seal of Quality is your guarantee that each piece of jewelry you purchase meets our exacting standards. If for any reason you are not completely pleased with your purchase, return your jewelry for a refund or replacement. Our Guarantee stands for the lifetime of your jewelry.
